DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, Figs. 1-9, in Paper No. 4 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 2, 14, 15, 10, 21, 32, 36, 37, and 46-48 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 4. Claims 14, 15, 36, and 37 are drawn to a machined assembly (a cooling system) which does not belong to the elected species. Furthermore, the kit as claimed in claims 46-48 does not read on the elected species as shown in Figs. 1-9.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 26-31, 33-35, and 38-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 26 recites the limitation "the gasket or seal" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 3682

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purpose of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English Language.

7. Claims 1, 3-9, 11-13, 16-20, 22-31, 33-35, 38-45, and 49-52 are rejected under 35

U.S.C. 102(e) as being clearly anticipated by Cotton et al., U.S. Patent Application Publication

No. US 2001/0010852 A1.

Cotton et al. clearly shows, in Figs. 1-21, and describes, in paragraphs [0006], [0068] – [0070], and [0080], the device for absorbing fluid leaked from a machined assembly as claimed by the applicant.

Note: Regarding claims 50-52, applicant is reminded that although the product by process claim is permissible, the process in which the product is made cannot be given patentable weight in a product claim. Therefore, the method limitation of the device being attached to a machine assembly or the pan cannot be given patentable weight. (See MPEP § 2113).
